MOUNIKA GONTI
Fullstack Fronted Web Developer

📞 +91-9346480432   📍 India   ✉ mounikagonti3@gmail.com

ABOUT ME

Overall 5+ Years Work Experience in Frontend Developer designing and developing scalable, high performance web applications. Proficient in **HTML**, **CSS**, **JavaScript** (**ES6+**), **React.js**, **Redux**, **TypeScript**, **Next.js**, **Vue.js**, and **Tailwind CSS**, with expertise in building responsive, interactive, and user-friendly interfaces. Skilled in **Node.js**, **Nest.js**, and **GraphQL** for backend integration, along with experience in **Bootstrap** for **UI design**. Strong understanding of **Agile methodologies**, working in fast-paced environments with **Jira**, **Git**, **CI/CD pipelines** (**Jenkins**, **GitHub Actions**), and Basic Knowledge of **cloud platforms** (**AWS, Azure**). Passionate about **writing clean**, **maintainable code** and **optimizing performance** for **better user experiences**.

EDUCATION

B.Tech - IT
Vardhaman College of Engineering
Jun 2015 - March 2019
With 70 %

SKILLS

- HTML
- CSS
- SASS
- Material UI
- Tailwind CSS
- Bootstraps
- Jira
- Agile Methodology
- JavaScript
- ECMA Script 6
- ES 6
- GraphQL
- React.js
- Redux
- Node.js
- Next.js
- Vue.js
- CSS Grid
- Flex Box
- GraphQL
- Context API
- Mocha
- Typescript
- React Testing Library
- GitHub
- Jenkins
- Docker
- Jest

WORK EXPERIENCE

CUURENT COMPANY : TANAMA SOFTWARE PRIVATE LIMITED ⎮ **DURATION :** JULY 2022 TO TILL NOW

PROJECT 2 : JP MORGAN CHASE (BANKING)

Developed a dynamic and user-friendly front-end interface for the Discover Card website, focusing on delivering a seamless user experience for cardholders and potential customers. The project involved modern web technologies to ensure performance optimization, responsive design, and intuitive navigation.

Used Skills :

HTML, CSS, SASS, Material UI, Tailwind CSS, Bootstraps, Jira, Agile Methodology, JavaScript, ECMA Script 6, GraphQL, React.js, Redux, Node.js, Next.js, Vue.js, CSS Grid, Flex Box, GraphQL, Context API, Mocha, Typescript, React Testing Library, GitHub, Jenkins, Docker, and Jest

FIREST COMPANY : TECH MAHINDRA ⎮ **DURATION :** JULY 2019 - APR 2022

PROJECT 1 : IKEA (E-COMMERCE)

Developed & enhanced the IKEA website, focusing on creating a seamless & engaging shopping experience for customers. The project aimed to build a highly responsive and feature-rich web application that aligns with IKEA's branding, offers easy navigation, & ensures robust performance for a global user.

Used Skills :

HTML, CSS, SASS, Material UI, Tailwind CSS, Bootstraps, Jira, Agile Methodology, JavaScript, ECMA Script 6, GraphQL, React.js, Redux, Node.js, Next.js, Vue.js, CSS Grid, Flex Box, GraphQL, Context API, Mocha, Typescript, React Testing Library, GitHub, Jenkins, Docker, and Jest

ROLES & RESPONSIBILITES

- Developing & deploying modern web applications using cutting-edge technologies like React.js, Redux, and Next.js.
- Proficient in HTML5, CSS3 & JavaScript (ES6+), with a keen eye for creating user-centric, responsive, and interactive interfaces.
- Strong expertise in React.js for developing reusable components and maintaining state management with Redux.
- Experience with Next.js for server-side rendering and optimizing performance in React applications. Hands-on experience with Typescripts to build scalable, type-safe, and maintainable applications.
- Skilled in using CSS pre-processors and modern CSS frameworks like Tailwind CSS and Bootstrap.
- Familiar with Node.js for building RESTful APIs and enhancing fronted-backend communication.
- Proficient in modern tools like Webpack, Babel, and Vite to streamline the development process.
- Successfully built & deployed responsive web applications for this client, improving user engagement by 30%.
- Enhanced website performance by optimizing code, reducing page load time by 20% through advanced JavaScript techniques and server-side rendering.
- Implemented state management solutions with Redux & Context API, reducing app bugs & improving scalability.
- Led the development of a scalable e-commerce platform using React.js, Redux, and Typescripts, serving active users monthly.
- Developed a content-rich website using Next.js, ensuring SEO optimization and improving organic traffic by 50% within six months.
- Created reusable UI components for a design system, ensuring consistency across web applications.
- Strong commitment to collaborative teamwork, working closely with UX/UI designers to deliver seamless user experiences.
- Adept in agile development methodologies, ensuring on-time project delivery with iterative improvements.
- Exceptional problem-solving and debugging skills using tools like Chrome DevTools, Redux DevTools, & Jest and Familiarity with testing frameworks like Jest, React Testing Library.
- Advanced skills in React.js for building dynamic, component-based user interfaces and Redux for state management in complex applications.
- Experience in Next.js for building server-side rendered (SSR) & static sites, optimizing web performance.
- Strong understanding of TypeScript for developing type-safe and scalable JavaScript applications.
- Experience with Node.js to build RESTful APIs & seamless integration of frontend interfaces with backend.
- Skilled in optimizing web applications by leveraging code-splitting, lazy loading, and advanced caching strategies to enhance load speed and user experience.
